- 📍 12 Bridge St, Brisbane, QLD
- ☑ Driver License

### PROFILE SUMMARY

Dedicated and safety-conscious Traffic Controller with extensive experience in managing road traffic, setting up traffic control plans, and ensuring safety compliance in construction and roadwork environments. Skilled in stop/slow bat operation, pedestrian and vehicle management, and working under high-risk conditions. First Aid Certification, and a QLD Driving Licence. Available for immediate start.

### EDUCATION

- 2022  
TAFE QUEENSLAND
  - Traffic Management Training
- 2017  
LYCÉE SAIN-PIERRE, NICE
  - High School Diplomat

### WORK EXPERIENCE

**RoadSafe Solutions** January 2025 - Present  
Traffic controller

- Managed traffic flow around construction and roadwork sites, ensuring safety for workers and the public.
- Set up, maintained, and removed traffic control devices, including signs, cones, and barriers.
- Communicated effectively with site managers, truck drivers, and pedestrians to coordinate smooth traffic movement.
- Conducted regular safety checks and adjusted traffic plans based on changing road conditions.
- Responded quickly to emergencies or incidents, reporting hazards and ensuring compliance with workplace safety standards.

### CERTIFICATIONS

- Traffic Controller (TC) Certificate – QLD – September 2023
- Basic Worksite Traffic Management (BWTM) – QLD – August 2023
- White Card & First Aid – QLD – July 2023
- QLD Driving Licence – July 2023

**SafeWay Traffic Management** March 2024 - September 2024  
Traffic controller

- Managed traffic flow during roadworks and construction projects across the M1 highway, ensuring safety and minimal disruption to motorists.
- Set up and maintained traffic control equipment, including signage, barriers, and cones, in accordance with traffic management plans.
- Directed vehicles and pedestrians using hand signals and radios, ensuring safe navigation through detour routes and work zones.
- Collaborated with site supervisors and the construction team to monitor and adjust traffic control measures based on real-time conditions and construction progress.
- Worked closely with emergency services to manage road closures, diversions, and ensure safety during accidents or incidents.

### LANGUAGES

### BuildRight Constructions

June 2022 - February 2024

#### Labourer

- Assisted in the construction of residential and commercial buildings by performing general labor tasks, including lifting, moving, and unloading materials.
- Operated basic construction machinery such as forklifts and compactors under supervision to assist with site preparation.
- Dug trenches, mixed concrete, and helped with the pouring of foundations and other structural elements.
- Ensured construction sites were clean and safe, removing debris and hazardous materials to maintain a safe working environment.
- Supported skilled tradespeople, including carpenters and electricians, by preparing materials and tools, and assisting with measurements and layout.
- Followed all safety protocols and regulations to prevent accidents and injuries on site.

### Vinci Autoroutes

January 2020 - May 2022

#### Roadworker

- Coordinated traffic management for roadworks on the A50 motorway, ensuring the safety of workers and drivers during construction activities.
- Set up and maintained traffic control devices, including road signs, barriers, and cones, following Vinci Autoroutes' safety standards and guidelines.
- Worked closely with the project manager and construction teams to plan and implement temporary road closures and diversions, minimizing traffic disruption.
- Monitored traffic conditions, reporting incidents or accidents immediately to ensure quick response and minimal impact on road users.
- Assisted in regular safety audits and inspections to ensure compliance with road safety regulations.
